1. PROJECT DESCRIPTION

Please provide a detailed description of the project.

The proposed project comprises the development of 92 freehold residential subdivisions and associated infrastructure within the Mount Verde Estate. The proposed subdivisions are intended to establish a low density rural residential development providing a transitional zone between the higher and lower density land uses which surround the project. The total extent of the land to be subdivided is approximately 457 hectares in extent, whilst the developable area for non-agricultural use is approximately 45.7 hectares (10% of the total property area). The remaining balance of the property (90% of the total property area) will be retained for agricultural use. This Basic Assessment application is made only for the development of the non-agricultural land uses within the proposed development site. All development will occur on land which has been previously utilised for agriculture within the past 10 years.

Servicing of the sites will be by means of septic tank and soakaway systems, electrical supply will be via the existing Eskom infrastructure, and potable water supply will be via the UMgungundlovu District Municipality for which a service level agreement is already in place. All servicing infrastructure for the sites will be located within the footprint of the internal access roads. The main access to sites will be through the existing entrance to the Mount Verde Estate and internal access roads will follow existing agricultural roads where feasible and practical, upgrading & widening of certain existing roads within the estate will however be required in certain places. No new watercourse crossings, or upgrading thereof, will be required for the proposed development which will make use of the existing watercourse crossings for all access purposes. Furthermore, no residential dwellings or associated garden footprints will be constructed on indigenous vegetation or within 32 metres of a watercourse.

(a) Strategic Infrastructure Projects

Does the project form part of any of the Strategic Infrastructure Projects (SIPs) as described in the National Development Plan, 2011?		NO
